North Dakota Good Roads Association Sees Harm to State in U. S. Measures

WRITE TO CONGRESSMEN

Legislative Committee Plans to Ask for Non-Political Highway Body

Opposition to features of the Dowell bill and the Townsend bill, now pending in Congress, which would deprive North Dakota and a number of other states of federal aid in highway construction at this time is expressed by the legislative committee of the North Dakota Good Roads association.

The committee, in a two-day session here, examined the measures closely and spent considerable time preparing a preliminary draft of a constitutional bond issue amendment for good roads to be submitted to the people of the state.

Both the Townsend and Dowell bills provided that federal aid shall not be given to states which divided the cost of state highways with counties, but require that state highways shall be built solely out of state funds. Under present highway laws the federal aid money in North Dakota is matched by the counties, with the state doing the engineering work and bearing expense of preparation of plans. Ultimately, under the good roads association plan, state highway will be built with state funds, but the association opposes a change in the federal law at this time.

Drafting Amendment.

Opposition also is expressed to the feature of the Townsend bill which would remove the federal bureau of good roads from the agricultural department. The legislative committee believes that agricultural states will fare better in the participation in federal aid if the bureau is left in the department of agriculture.

The committee, which is composed of F. W. Mees, chairman; F. W. Turner and A. T. Krauel, is not ready to announce a draft of the proposed constitutional amendment. It was stated, however, that the amendment, when completed, will provide for a highway commission appointed in a manner that will make the highway commission as nearly a non-political body as possible.

Letter to Senators.

The following is a draft of a communication prepared by the committee to be sent North Dakota senators and congressmen:

The legislative committee of the North Dakota State Goods Roads association heartily approves the principal elements of both the Dowell and the Townsend bill.

The only objection that we find either is that the Townsend bill would undoubtedly and the Dowell bill would probably cause North Dakota to lose the opportunity of using Federal Aid of the new appropriation until after January 1st, of 1924.

The provisions to which reference is made are those directing that no project be approved for federal aid until after the state has provided a state fund at least equal to the Federal Aid, and a State Fund for Maintenance.

North Dakota at present has such funds, could only set up such funds through constitutional amendment requiring action at the polls and in the legislative assembly.

We have given some thought to the matter of the constitutional amendment, had intended to sponsor legislation, such as would now be necessary, even though the pending Federal Acts had not forced the issue. Our plans, however, had been for circulating petitions early in the spring of 1922, voting on the initiated measure at the June primary and then having the measure placed before the legislative assembly in January of 1923. The constitutional amendment and the attendant legislation to give it force would then become effective on January 1st, 1924, the proposed changes necessitating a change, an increase, in the automobile licensing.

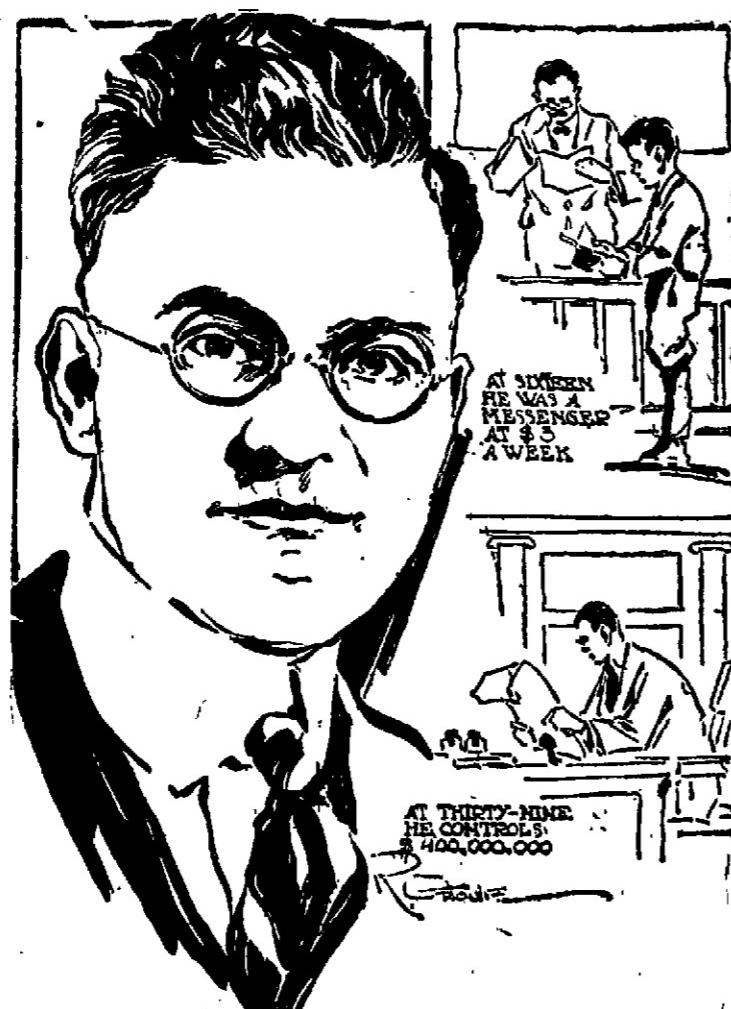

We feel assured that whatever action may be taken by Congress we, in North Dakota, cannot provide "State Funds" to meet Federal Aid until 1924, and to care for "maintenance."

Careful Drafting.

We hope, therefore, and urge, that the senators and congressmen representing North Dakota in Congress will use all of their influence to have whatever Federal Aid bill may pass drawn so as not to be harmful to the road building program in North Dakota. We have a federal and state aid plan of construction well under way and need the additional Federal Aid of the proposed new bill to carry it on but would urge the representatives and friends of the state to oppose new measure providing Federal Aid under such conditions that we could not, at least for two years, avail ourselves of its benefit.

JOHN A. NYLIN.

By Newspaper Enterprise.

Chicago, June 11.—At 16 a messenger at \$3 a week.

At 39, president of the Chicago and Cook County Bankers Association, controlling \$400,000,000.

This is the jump of John A. Nylin, whose salary is \$100,000 a year.

Nylin's formula for success is simply, "hard work, application, grit and ability to dream practically."

The "boy banker" is the youngest man ever chosen to fill the office he now holds.

In addition he is also vice president and cashier of the Fidelity Trust and Savings bank here.

"Too many young men just now are holding 'blind alley' jobs," he says.

"They are not content beginning from the bottom and working their way up."

"But always pay good salaries to start with seldom hold out much chance for opportunity."

"Give me the man with determination to succeed—one who looks upon every scrubbing with life as a lesson. That is the type that will come in ahead of the game!"

"Fate probably was kind to me in letting me be born poor."

Chicago, June 11.—Marked cuts in prices of heavy duty motor trucks were announced today by the International Harvester company. Reductions range from \$268 to \$900.

**WOMAN DENIES
MURDER CHARGE**

Cleveland, O., June 11.—Mrs. Eva Katherine Kaber, widow of Daniel F. Kaber, of Lakewood, O., and her daughter, Miss Marion McArdle pleaded not guilty to the charge of first degree murder of Kaber when arraigned before Judge Morris Bernon this morning. The court set their hearing for June 18 and remanded both women to jail without bail.

Ex-service men gathered at the flag pole in Northern Pacific park at 1 p.m., the flag hanging at half-mast. The veterans faced the west for thirty seconds in silent tribute and taps were sounded, after which the flag was raised to the top of the staff.

The funeral of Col. Galbraith was held in Cincinnati, Ohio, this afternoon.

Priest Drops Dead
In Apartments.

Dickinson, June 11.—Fr. Francis Wendish, pastor of St. Wenceslaus Catholic church and rector at St. Joseph's hospital, dropped dead in his apartments at the hospital shortly after rising at 5 A. M. Tuesday. Medical aid was hurriedly summoned as soon as his inert body had been discovered but life was found to be extinct.

Funeral services were held from St. Wenceslaus' church Thursday morning at 10 o'clock. The church was crowded with former parishioners and friends who came to pay their last respects. Solemn requiem mass was celebrated by Rev. Fr. Buble of New Prague, assisted by Rev. Fr. George Ahere of St. Joseph's church at Dickinson, and Rev. Fr. Felix Hummer of Gladstone as sub-deacon. Fr. Doering of Belfield acted as master of ceremonies. The Panegyric was given by Fr. Buble. Other clergymen present were Rev. Fr. Vincent of Richardson and Rev. Fr. John Dignam. Burial was made in the church cemetery.

Fr. Wendish was born in Bohemia 62 years ago. He received his early education at the Louvain university in Belgium and upon coming to America entered a seminary in St. Paul, where he was ordained as a priest.

Three months ago he came to the pastorate of St. Wenceslaus church, succeeding Fr. Hehn. As far as can be learned he had no relatives living in this country.

One Theory is Exploded After Tracing Ownership of Suitcase

FOUND IN A STATION

Girl Unable to Pay Hotel Bill Had Taken Suitcase There, is Claim

Fargo, June 11.—Authorities apparently were no nearer a solution of the murder of Miss Marie Wick today than they had been at any previous time.

Officers were still trying to establish whether the "whip of hair" clutched in the hand of Murie Wick, who was murdered in a hotel here, is human hair or not. The University of North Dakota has failed to determine this point and the University of Minnesota has been asked to examine the substance.

Authorities are working on no definite theory in running down the murderer, William Green, state attorney, said today, but are following all clues that can be found.

The suitcase mystery, which for a time was thought by the authorities to offer a clue which might lead to the arrest and identification of the murderer, yesterday turned out to be a false lead.

States Attorney W. C. Green issued a statement last night that the suitcase found in the Great Northern depot Tuesday morning had been left there by a young woman who had stolen it in a local hotel.

Green Issues Statement

The solution of the suitcase mystery was definitely accomplished when the sheriff's office obtained a confession from the girl at a local institution yesterday. Before she had seen the suitcase in possession of the sheriff's office she described it in detail.

State Attorney Green's own dictated statement on this matter follows:

"On the forenoon of June 1st, a girl who had been staying at the Prescott hotel and occupying Room 31 left there because she could not pay her hotel bill, leaving her baggage there and taking with her the key to Room 31. That night she spent a part of the time in one depot and a part in the other. During the night, however, in wandering around she came to the Central House, a hotel on Second Avenue North and Third Street, and finding one in the office walked upstairs. There she stayed two nights.

"In the meantime she got enough money from a friend to pay her hotel bill at the Viking and upon leaving there, left the suitcase case at the Great Northern station on Saturday night, where it undoubtedly remained undiscovered until Tuesday.

Girl Identifies Contents

The girl who had never seen the suitcase or contents in the sheriff's office, and who has ever since Sunday been an inmate of an institution in Fargo, described perfectly the suitcase and contents, and also described the hotel and place where she took the grip before taking the officers there. The key was placed in the suitcase by her, and the condition of the towel is accounted for.

"This suitcase was discovered by the janitor at the Great Northern depot Tuesday morning and fell open yesterday noon. Upon discovery of the contents he took it to officials, and a great deal of time and effort was expended in investigation which finally led to the solution of the entire matter."

TO TAKE FINGER PRINTS

Crookston, Minn., June 11.—Authorities today expected to take finger prints of neighbors of Mr. and Mrs. Albert Dubois, whose daughter Katie was found unconscious in their farm home near Angus yesterday. An arrest was expected today.

Announcement was made by authorities that an arrest was expected in the case. The girl was found unconscious on the kitchen floor late yesterday by her parents when they returned from a visit. The girl had been beaten over the head with a butcher knife and had several cuts on her arms and hands. She had been bound and gagged and would have been strangled to death had not her parents returned when they did.

Katie told the sheriff she would be able to identify her assailant although she was masked when he entered. He pointed a revolver at her and threatened to shoot if she made an outcry. When she resisted his advances, she said, the man used a butcher knife.

Self-help meant that for all citizens of every class and of every degree of wealth, it was a patriotic duty to give up the use of enemy goods and consume only things made in Germany.

READE HONORED
ON HIGH PRICE
OF WAR SHOES

Washington, June 11.—High prices of footwear which obtained during 1918 and were increased in 1919 result from "abnormal conditions of supply and demand, both economical and psychological, arising from the war," the federal trade commission today reported to the house of representatives. The report was submitted in response to "incident to these conditions," the report added, were large margins of profit taken by tanners, shoe manufacturers, wholesalers, jobbers and retailers, whose large earnings were debarred to be out of all proportion to the increase in their cost per unit.

KANSAS INDUSTRIAL COURT LAW IS HELD CONSTITUTIONAL BY SUPREME COURT IN AFFIRMING HOWATT CASE

Topeka, Kan., June 11.—In the most sweeping decision yet handed down affecting validity of the Kansas Industrial court law the state supreme court today affirmed the decision of the Crawford county district court sentencing Alexander Howatt to one year in jail for contempt.

The law was held valid on each of the eight issues raised.

Referring to the industrial court the decision sets forth:

"The act creating the court of Industrial Relations is a reasonable and valid exercise of the police power of

the state over the business of producing coal and does not impair liberty or contract or permit involuntary servitude contrary to the constitution of the United States."

The opinion, which was written by Justice R. W. Burch and concurred in by all of the supreme court judges, emphatically states that production of coal is affected with a public interest.

Howatt is president of the Kansas coal miners union.

It was announced a few days ago that Kansas employers intended to test the validity of the industrial court law.

Supreme Court Gives State Attorney-general Right to Go Ahead with Suit

Austin, Texas, June 11.—The Texas attorney general's department announced today that the supreme court of the United States had granted it a request to file a suit attacking the constitutionality of the Interstate Commerce Commission and the United States Railroad Labor Board. The supreme court informed the department that a subpoena had been issued to the two organizations requiring them to appear before the court and defend their positions which the Texas suit attacks. The suit was filed June 6, the announcement said.

In the action the state of Texas set up the plea that the labor board and Interstate Commerce Commission are without constitutional and statutory authority and pray that the two bodies be declared illegal. It pleads that all laws or parts of laws directing, empowering or regulating the creation, appointment and other qualifications of the members of the defendant organizations be declared unconstitutional, invalid and void.

Attacks 1920 Law.

Texas, in the suit, prays also that all acts and orders of the labor board and Interstate Commerce Commission be declared invalid and without force of law and that any section of the transportation act of 1920 he held constitutional be declared invalid.

An order is asked restraining members of the two bodies from enforcing rules and regulations that conflict with internal affairs of the state of Texas, its constitution or the constitutional rights of its citizens.

Colorado Executive Asks People of State to Help Flood Sufferers

Pueblo, Colo., June 11.—Flood prevention is Pueblo's big problem today as the work of emergency relief is well under way.

Announcement by Mayor Lovren last night that a committee would go to Washington to ask the federal government's aid in preventing a repetition of the flood was followed by a telegram from Secretary Fall, of the Interior Department, that two engineers would be sent at once to make a survey.

German business men are appealing to German people to stand by them in a trade war which they say has been forced upon them by the allies' action in putting up customs barriers on the Rhine and fixing a big tax on all German exports.

Hamburg at once started a counter-war. Figures showed that Germans were buying large quantities of French wines, perfumes and toilet articles, and various English products, especially cigarettes.

A proclamation of Governor Shoup calling upon the state to raise funds for relief work had a frightening effect on the populace. The Red Cross and affiliated organizations have the situation well organized, providing food and shelter and medical care for all need.

UNCLE SAM TO MAKE MOST ON THE BIG FIGHT

Taxes to Amount to More Than a Half Million Dollars

New York, June 10.—Uncle Sam never drew on a boxing glove in his life, but he'll make more money than Jack Dempsey. Georges Carpenter, or Tex Rickard on July 2.

Dempsey's income tax on \$300,000 approximately what he will receive for the battle, will amount to \$161,270. Carpenter's toll, when exemptions for his wife and child are subtracted, will total a modest \$93,334. That makes the score on the division of the purse read: United States government \$254,604; boxers \$245,396.

The marked difference between the taxes of the boxers is due to the surtax on the difference between \$300,000 and \$200,000. Dempsey, however, possesses an advantage in that he will have an entire year in quarterly installments, the first payment due March 15, 1922. Carpenter, before he starts, must pay every dollar. Government profits on the bout also include the 10 per cent amusement tax exacted by federal authorities, which will amount to approximately \$100,000. The state of New Jersey will exact a like sum.

Promoter Tex Rickard, whose profits may be \$100,000, will be taxed an amount which will bring the total government revenue from the encounter to considerably more than a half million dollars.

PRISON TEAM MEETS WILTON HERE SUNDAY

The state prison team will play Wilton at the penitentiary Sunday.

The game was scheduled with Wilton when Bismarck's schedule showed an open date Sunday. Beecher Stair, secretary to the warden, said. To prevent conflict with the Bismarck-Minot game Sunday, the penitentiary game will start at 1:30 P. M., giving fans an opportunity to witness all or part of the penitentiary game before the Bismarck-Minot game starts at 3 P. M.

The prison team will present a strong lineup against Wilton.

Chicago, June 10.—The application of Henry K. (Heinie) Groh, former captain and third baseman of the Cincinnati National league baseball club for reinstatement to the active list was granted yesterday by Judge K. M. Landis, commissioner of baseball. "On the express condition, however, that (he) joins the Cincinnati team immediately and remains with it throughout the season."

SPORTS BRIEFS

After five successive defeats Cleveland scored a victory over New York, 14 to 5. Frank Baker, former home run king, got his first home run as a member of the Yankees.

Yesterday was the tenth straight day some member of the Philadelphia Athletics has made a home run.

St. Louis went into third place in the National race yesterday by defeating Brooklyn, 8 to 3. Roger Horneby's home run helped St. Louis win. There were two on bases.

Milwaukee hit McCullough and Brady for 22 hits yesterday, winning 17 to 0.

Columbus also joined the heavy-hitting brigade, getting 21 hits off of Ames and Lambert, of Kansas City, and scoring 13 runs. Buck Herzog got two doubles and three singles in five times at bat.

Rube Schauer added another victory to his string pitching for Minneapolis this week. He appears to have regained his old form.

Lisbon beat Fargo, 2 to 1, in ten innings yesterday. The game was a pitching battle between Charlie Boundman, of Fargo, and Stradon, of Lisbon. Six hundred Lisbon fans saw the game.

CHESS MARVEL AT SIX

CElia NIEMARK

GIRL EAGER TO MEET POLISH PRODIGY

By Newspaper Enterprise, West Austin, O., June 10.—Samuel Rzeszewski, 9-year-old Polish chess-wonder now visiting in America, has best look to his laurels.

Celia Niemark, a little bobbed-haired

gingham-dressed farmer girl, "6 years old, going on 7," living just outside of West Austin, is right likely to prove a stumbling block in Samuel's victorious chess career.

"This little lady," her dad, Samuel

Niemark, will tell you, "just comes by chess naturally. She doesn't get it out of a book—her remarkable game comes out of her head."

And nobody, it seems, should know better about Celia than her dad. He's been a chess enthusiast for years.

Dad and Celia's 22-year-old brother David went to Youngstown, O., where Samuel Rzeszewski was playing in that city. David played him and lost. When Celia heard the family talking about Samuel and his wonderful play, she took her first interest in chess. And now?

"Celia keeps somebody busy most of the time across the chess board from her," says her mother. "They used to beat Celia—but not any more. Even when they use the chess book moves, Celia wins."

The chess book Mrs. Niemark was referring to was given to Celia by Frank B. Patrick of Urbana, O., chess champion of Ohio for several years. He had played Celia, and a short time after sent the book through the mails. On the inside cover is written:

"To Celia Niemark, the best lady chess player I have ever met over the board."

News of Celia's cleverness at chess seeped in to the Youngstown Chess and Checker club and she was invited to join. Now that club calls her "The Queen of the Chess Board."

And why not? She has beaten practically every member of the club—young and old.

Asked if she was willing to challenge Rzeszewski, Celia appeared a bit too shy to answer. But her brother broke in:

"You can say that she challenges any girl chess player in America."

5 CENTS AN HOUR FOR FARMERS

That's Why They're Going Bankrupt — Remedy Is at Hand

BY HERBERT QUICK.

Washington, June 11.—Senator Morris' bill for the Farmers Export Financing Corporation—which would relieve farm exports and business generally—ought to appeal to the hearts of all the people.

H. J. Wallace, Jr., of Des Moines, has been studying the returns which tenant farmers in the mid-continent region are receiving this year for their work.

They are getting on the average only five cents an hour for their work of feeding this country and much of the rest of the world!

This means bankruptcy. I have said that they are going bankrupt every day. Anyone can see that with ten cent of only five cents an hour they must go bankrupt.

Debt Press Them.

They have debts to pay. They have capital invested. And their debts must go unpaid, and their capital in horses, cattle, hogs, tools, poultry and the like will be stripped from them and they will be reduced to a state of

impoverishment never seen before among our farmers if this goes on. For there is no more cheap or free lands for them to go upon to make a new start.

Therefore their plight, and the merits of the Morris bill to finance the export of their crops should appeal to and touch your hearts whenever you are.

It ought to appeal to your judgment as a safeguard of our institutions.

If this descent of the farmers into the maelstrom of bankruptcy and poverty goes on much longer, you will see among them developments which will make the Nonpartisan League look mild.

What Bill Provides.

The Morris bill provides a corporation with the secretary of agriculture and four other directors to be appointed by the president with a capital of a hundred million dollars to finance our exports of cotton, wheat and all other agricultural products.

A hundred millions would not go far, but to corporation can make the business finance itself through sound credits. In my opinion, it will do the business.

It passed now, it will get into action for the fall trade.

Every community interested, and I know of none which is not, should move in this matter at once. Congress should hear from the county leaders are working. They should have help from the folks at home.

There is no European peasant in such a dreadful fix as our farmer. This is a shame which should be cured. If we who are interested in the matter move as quickly and powerfully as we can, it will be cured. Move!

HOW LEGION MEN GET LAND

Applicants for Homestead Entries Should First Make Personal Inspection of District.

In response to many inquiries from ex-service men in the Middle West regarding government land grants, Irvin L. Fenrite, secretary of Argonne post of the American Legion in Des Moines, Ia., has made an investigation of the situation.

"Persons desiring to make homestead entries," said Mr. Fenrite, "should first fully inform themselves as to the character and quality of lands they desire to enter and should in no case apply to enter until they have examined each legal subdivision for which they make application. Satisfactory information concerning the lands may be obtained from a personal visit to the district in which one wishes to take out land."

"Each applicant is required to swear that he is well acquainted with the character of the land described in his application and the only way that he can assure himself that prior settlers have no claim is to make a personal inspection of same."

"An ex-service man is required to establish residence on the land involved after his entry is allowed, unless an extension of time is granted on account of sickness, climatic reasons or similar excuses. Credit is given for service in the Army, Navy or Marines, providing the applicant has had eighteen months of service. If such is the case, the applicant is required to live on the land only seven months. If he obtains so much credit for military service that there is required only one year's residence, he must prove only such amount of cultivation as will prove his good faith as a homestead claimant. If his credit for service requires more than one year's residence, he must show cultivation to the extent of one-sixteenth of the area of the land beginning with the second year. Regardless of credit for service, all applicants must prove that there is a habitable house on the land."

"There is only one portion of the country where land may be obtained without the requirement of a homestead. At Sentinel, Ariz., there are 10,000 acres open, for which no homestead is required, but which necessitates the payment of seventy-five dollars for three hundred and twenty acres and an expenditure of one dollar per acre for improvement. This is arid land which may be used for cotton raising if irrigated. When irrigated, it sells for from two to three hundred dollars an acre. It is estimated that the cost of irrigation on three hundred and twenty acres is about \$10,000."

"Approximately 192,000,000 acres of land are open, including every state west of the Mississippi river except Iowa and Texas. The first thing to do is to decide on the state. Then, get the location of the land offices in that state. All blank forms of affidavits and other papers may be obtained for the district office in which the land lies.

"Taking out a homestead is not a speculative proposition. If the applicant can afford to establish himself for the period required under the homestead laws, taking advantage of the credit allowed him for service in the World war, he will be well repaid after a few years."

OLD GRADS OF HIGH SCHOOL HOLD REUNION

Hundred and Forty-Nine Attend Thirty-Fourth Annual Gathering

MRS. QUAIN IS PRESIDENT

One hundred and forty-nine alumni of the Bismarck high school and wives or husbands of alumni gathered at the 34th annual reunion last night. The reunion began with the banquet served in the McKenzie dining room and concluded with a roof garden party and dance.

The program was interesting throughout. Miss Clara Blumer was toastmistress. She introduced J. L. Bell, who gave the toast of welcome and told the class of 1921 that although there was no doubt of their welcome, having been invited by the alumnae, a personal welcome was added. Mrs. R. Penwarden gave the new members of the alumni an idea of the old-time high school and the older members a chance for reminiscences in her toast on "Ye Old Time High School." Miss Huber's toast on "Memorial to Our Soldiers" included a tribute to three of the Bismarck high school alumni among the soldier dead. Ellen Sauer gave the senior prize toast on "The Debt We Owe to the Pilgrim Fathers." Mrs. M. Hutchinson presented the "Our Future Hope" in the small person of Jean Porter Moore, the first granddaughter in the alumni. Warren Taylor, president of the class of 1921, gave the response to the welcome. The musical numbers were two solos, "The Wood Pigeon" and "The Owl," by Miss Eleanor Gustavsen and the "Hungarian Rhapsody," a piano solo, by Miss Mary Atkinson.

Mrs. Quain Heads Alumni
After the toasting a business meeting was held. Mrs. Fannie Dunn Quain was elected president of the association, and Dr. James Blunt was elected vice president. Miss Adele Kaufman was elected secretary and J. L. Bell, treasurer. Angela Holta, of the class of 1917, was chosen as chairman of next year's banquet committee. The class of 1917 entertains next year. Auld Lang Syne was sung for Prof. C. W. Bolt.

At the conclusion of the business meeting the party adjourned to the roof garden.

The names of the people attending the alumni banquet follow:

BACHELORS TO PAY FOR FREEDOM

Helena, Mont., June 11—Bachelors aren't worrying much about the tax placed on them by the Legislature. Many do not know it's such a tax. "They'll wake up at tax-paying time in November," says Chas. T. Stewart

secretary of state. "Every man over 21 and under 60 who is not the head of a family will have to pay \$3 then." Widows' and mothers' pensions will benefit by the bachelor tax. Montana is the first state to place the law in its statutes, although several states have such laws pending.

ADDS TO LEGION'S STRENGTH

Commander of Minnesota Department Has Way of Doing Things That Gets Results.

Under the direction of A. H. Vernon, commander of the Minnesota department of the American Legion, that state has become one of the strongest Legion departments in the country.

Commander Vernon's theory is that success comes to the Legion in proportion to the service it gives to its members and to the state. In carrying out this policy he has built up a Legion Service bureau which handles one thousand ex-service claims a month and a department branch of the American Legion News Service.

Early in 1921, when the Federal board for vocational education prepared to send representatives to sixteen centers in the state to examine disabled veterans, the authorities were handicapped by a lack of publicity. Commander Vernon prepared twenty thousand large posters and placed them on every billboard in the state. This was supplemented with information to every newspaper in regard to where every disabled man should report to receive compensation, vocational training and medical treatment.

FATHER MORAN AIDS LEGION

Former Army Chaplain Assists in Obtaining Armistice Day Legislation in Minnesota.

When the Minnesota American Legion state legislative committee at the opening of the state legislature appointed sub-committees to pilot its various bills through the house and senate, Father D. J. Moran of Farmington, was made chairman of the Armistice day committee.

Attacking the job with Argonne fervor, Father Moran obtained the passage of a bill declaring Armistice day a legal holiday as the first piece of Legion legislation enacted into law.

As army chaplain, Father Moran served ten months overseas. He is an ardent Legion lecturer and worker. When he returned from France in September, 1918, and found no Legion post organized in Farmington, he headed straight for Legion state headquarters, obtained the necessary blanks and within a week had established one of the most active posts in Minnesota.

BOY SCOUTS TO GO INTO CAMP

Troop 1 Will Hold Annual Camp on Grounds at Apple Creek

Troop 1, Boy Scouts of America, will hold its annual camp at the Scout grounds on Apple Creek, south of the city next week. At the last Scout meeting the law which requires every Scout to be in the second class in order to go to camp was amended so that any "tenderfoot" upon presenting the written permission of the two assistant Scoutmasters, and has written promises to apply himself to the tests at camp, may be permitted to attend. All Scouts must have their dues paid through June.

Every Scout going to camp must pay \$3. If the food cost \$2.50 or less apiece the money will be refunded. The truck carrying the luggage will leave the Baptist church at 9 o'clock and the troop will leave as soon after this as possible. The main cooking utensils are furnished by the troop, but personal dishes must be furnished.

The idea comes from Paris, of course. And the paper is so waxed and chemically treated that it is said to be beyond destruction by the elements.

DON'T GIVE UP THE SHIP

(Florence Borner.)

We are sailing along on Life's ocean's broad crest,
And the billows are laden with strife and unrest;
Tho' rudder may fail you, and sail chanceless still;
Don't give up the ship, boys, don't give up the ship.

The oaks of red ruin like sentinels stand,
To tell all our fears and lead us to the land;
But there they have hidden a death trap and pit,
Don't give up the ship, boys, don't give up the ship.

Our noble old ship's ridden thru the typhoon,
While vessels less rugged have gone to their doom,
And, safe she'll return from her perilous trip,
Don't give up the ship, boys, don't give up the ship.

Our noble old vessel is steadfast and brave,
See how she rides over each towering wave;
We're nearer the harbor each fall and each dip,
Don't give up the ship, boys, don't give up the ship.

Hurrah for Columbia, best ship on earth,
She cradled our freedom, gave Liberty birth,
Let her sail o'er the ocean so broad and so vast,
While the folds of our Flag proudly float from her mast.

A CLUSTER OF FIELD FLOWERS

For the late summer afternoons when you are getting the last bit of wear out of the lace and dimity dress, what could be more picturesque than a large bag of black horse hair with a

gan senator. Witnesses were called in quick succession and for comparatively brief periods to supplement testimony that had given at the trial of the criminal case against the senator at Grand Rapids, Mich. The committee also heard at second hand what purported to be Mr. Ford's own theory of Senator Newberry's campaign, from Allan Templeton, of Detroit.

"Mr. Ford called me in after the election," Mr. Templeton said, "and told me that he believed a gang of

Jews had a general conspiracy to control the senate and the government and that they had backed Newberry. He said that a million dollars had been spent in the state to carry the election."

Strawberries Will Soon Be Gone

You can make a pleasant variety of jams, conserves, jellies and sauces with strawberries. Try this tested recipe:

Mother's Preserves

To one pound strawberries, after they have been picked over, add one pound sugar; put them in kettle over slow fire, until sugar is melted, then boil them for 15 minutes. When done, remove from heat, have jars ready and put fruit in, boiling hot. Cover and seal jars immediately.

SUPPORT THE TEAM

Bismarck saw a real article of baseball last evening. It was fast snappy ball and the boys who were responsible and the management behind the team deserve the heartiest co-operation.

The place to support the team is at the box-office. That is better than drives or campaigns. It may be necessary to secure some more financial assistance to put the team on the proper basis, but the amount will be insignificant if the fans will turn out and fill the seats behind the home plate and along the sidelines.

Minot plays two more games in Bismarck and the attendance for the two remaining games should reach the 1200 mark or better for each contest. Additional facilities have been added to the grandstand and the games can be witnessed with the greatest comfort.

A baseball team is a fine asset for any town. It ranks with the band, parks and other features of community recreation. When the game is kept clean, and the men behind baseball in Bismarck assure that it will not become tainted, the people should show appreciation at the only place that counts—the box office.

The crowd Friday evening was a good one, but Bismarck can do better at the two games which are to be played.

Get into the game and put Bismarck among the top notchers as a good baseball town and a supporter of clean sports.

MILITARY AND CIVIL SALARIES

The salary and allowance income of General Pershing, the ranking officer of the army, is \$21,000 a year.

Next to the president, he is the highest paid official in the federal government.

The salary of the chief justice of the Supreme Court is \$15,000 a year and of each of the associate justices \$14,500 a year.

Cabinet officers are paid \$12,000 a year; senators and members of the house \$7,500 a year each.

The United States commissioner of education is a \$5,000 a year man. There are dozens of men of the highest scientific attainments in the government service whose salaries are a mere fraction of what is paid to the head of our fighting forces.

This is not to suggest that Pershing is overpaid, but the thought naturally occurs, that these figures are somewhat inconsistent with our non-militarist pretensions.

AN EXAMPLE OF FORTITUDE

Every now and again the cables announce that Premier Lloyd George, suffering from overwork, has been ordered to take a complete rest.

Then in a few days the little Welshman is back on the job again shouldering the greatest burden that any British premier has been called upon to carry for many generations.

There seems to be no limit to the staying and recuperative powers of the marvelous man who is guiding the destinies of the British Empire during these trying years.

He is the only statesman in a position of authority in any of the great nations who has survived the war upheaval, whose physical, mental and moral powers have proven equal to the tremendous strain of the past half dozen years.

Whether one agrees or disagrees with the Lloyd-George policies; whatever position history may give to him, it is doubtful whether his example of fortitude and courage has been equaled in the last 50 years of the world's statesmanship.

IF YOUR HUSBAND DISAPPEARED

On June 7, 1898, Andrew William Fuerlinger decided he was tired trying to support a family on \$15 a week.

He quit his job in Pearl River, N. J., went home, threw his factory pay envelope on the floor, walked out the door and disappeared.

For 23 years nothing was heard of him.

The other day Mrs. Fuerlinger, now 72 years old, was weeding the little garden back of her cottage. She looked around and saw her long lost husband standing behind her.

"I've made a home in Connecticut," said he. "And I've come to take you there with me."

"I can't decide what to do," says Mrs. Fuerlinger. "I've lived in Pearl River 50 years. I don't think I can leave. I'm too old to make new friends and new gardens. And—who'll take care of my flower garden here?"

Ladies, what would you do if your husband dis-

appeared, remained away 23 years, then came back to you and wanted to start where the two of you left off?

Would you go with him again—"till death do us part?"

Or would you prefer your flower garden and your other constant friends?

A diplomatic people would not seek to antagonize England, Japan, and Mexico at the same time.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

EDISON, JR., HAS AN IDEA

Within the next ten or fifteen years every automobile will produce its own fuel by a still carried-on the car and operated by the heat and motion of the motor, said Thomas A. Edison, Jr., son of the famous inventor, in an address at the graduation exercises of the Knights of Columbus free technical school for former service men and women.

"For ten years I have been working on a substitute for oil, a mixture of kerosene and some other ingredient that will have the combustible qualities of gasoline," he said. "I believe that mixture will some day be found. We shall be able to solve the problem by manufacturing stills for individual cars to distill a combustible mixture from crude petroleum and other chemicals while the car is in motion, just as cars generate electric power while running."

Mr. Edison said that it is the ambition of his life to perfect his oil distillation device, and added that a car of average power so equipped will be able to produce not only sufficient fuel to run itself, but enough valuable by-products to pay for the maintenance of the car. He declared that the invention, when completed and marketable, will probably meet with strong opposition on account of its revolutionary effect on one of the world's largest industries. "But the oil shortage demands this revolution, and it will come," he declared.—Boston Transcript.

THE COUNTRY MERCHANT

He is "defated" to the extent of 20, 30 or 40 per cent of all he has. He marks off his loss at one stroke, and goes on about his business without complaining.

He is abused as a "profiteer" when prices, about which he has little to say, are high, but he gets no credit for helping to bring them down.

He often extends credit to his community so freely that he puts customers in the position where they are ashamed to ask for more credit, so they begin trading—for cash—with mail order houses.

He is called upon to pay taxes and subscribe to every fund collected for charitable or other public enterprises, but he often knows that the very persons who solicit the subscriptions do their trading "out of town."

Every year or two he sees springing up, some movement for "co-operative stores" or for "eliminating the middleman," based on the economic folly that a retailer plays no useful role in the scheme of existence and is not entitled to some recompense for his services. He sees these movements spring up, apparently thrive for a few weeks or months, and then die like others before them. Each one takes a little trade from him and makes his cost of doing business a little higher, and in the end hurts the very persons who are not willing to concede a retailer a fair wage.

He hears himself described as a "human leech," a "parasite living off the farmer, a "tool of Big Business." He hears threats to "drive him out of town" and to "make the grass grow in the streets" of his town. He watches loud-mouthed politicians organizing boycotts against him among his own friends and neighbors.

He is the backbone of every community in which he is found, but he asks no favors from lawmakers or any class legislation, and wouldn't get them if he did.

He is the country merchant of North Dakota; and he is in Fargo this week several hundred strong for the annual state convention of the North Dakota Retail Merchants association.

Good luck to him!

May his district have a bumper crop this summer; may the farmers pay their accounts; may they forget the mail order houses and renew old friendships with the town folks; may the "deflation" process end and prices be stabilized on a normal basis; may business thrive sufficiently this coming summer and fall to warrant painting up the old flivver or possibly getting a new one.—Fargo Forum.

THE OLD, OLD STORY

ADVENTURES OF THE TWINS

By Olive Barton Roberts

"Thank you very kindly," he said with a bow.

Mr. Muskrat came dripping along just then. He looked so worn and worried and wet that Mrs. Muskrat had the heart to scold him, but rushed toward him at once. "Oh, my love, where have you been?" she cried, anxiously.

"Been!" panted Mr. Muskrat. "I haven't been! I was taken. What do you think? Old Man Flood pulled the ice-stoppers out of all the creeks and the whole kaboodle of them rushed into Ripple Creek at once. I saw what was going to happen and was rushing to help you when Old Man Flood pulled me into the water."

When I passed our front door he had hold of me tight and wouldn't let me stop at all. He reached out and grabbed everything he could get his hands on and pulled it into the water. All the time he was roaring like the Fourth of July. My, but I am glad that you and the babies were out of his reach!"

"But we weren't," corrected Mrs.

Muskrat. "The high water got into our house and nearly drowned us. This lady saved us!" She pointed at Nancy.

Mr. Muskrat seemed surprised. He hadn't noticed that anyone else was present; he was so upset and excited and tired and a few other things. "Thank you very kindly," he said with a bow.

"Oh, don't mention it," said Nancy. "You see, I'm helping Mr. Sprinkle-Blow."

"Sprinkle-Blow!" cried Mr. Muskrat. "Where is he? I should like to tell him about this outrage."

Before Nancy had time to answer, the fairyman himself came around a corner and who should be beside him but that rascal, Jack Frost.

"Oh, goodness!" shivered Mrs. Muskrat, cuddling her children.

"Brrrrr!" shivered Mr. Muskrat, for he was awfully wet, and Jack's chilly breath nearly froze him.

Mr. Sprinkle-Blow looked worried to death.

felt no attraction toward him. But he seemed civil enough so they invited him to join their philosophical walk. The three were only an hour or so on the road when they came upon a car stalled in a ditch.

Unless steps are taken for the eradication of the dandelion, Bismarck will be termed "The Dandelion City." The first sight that greets the stranger in our fair city after entering the N. P. depot is our beautiful park lawn on the east and west side of the depot, then but 50 feet north one of the finest crops of dandelions that eyes ever

preyed upon lies before them. Just a stroll three blocks further north on 5th street, an entire city block, housing our county officials looms up, but sad to behold that same little "flower pest" greets their eyes. Were this all it would not be half bad, but here one has a wonderful crop of sweet clover thrown in for good measure. A trip of sight seeing will soon bring them opposite the governor's mansion, where just about the blue ribbon crop greets them. This beautiful and wonderful residence site is vacant and allowed to bring forth seed so as to help spread this "disease" to 100 per cent pure lawns.

The boulevards, too, not wanting to be outdone by these prominent landmarks contribute their share to the end when Bismarck will be named "Strangers Three".

E. B. KLEIN

Never did a candidate for political office have a more strenuous or more laugh-provoking time of it than does Roscoe Arbuckle in his first Paramount starring feature, "The Life of the Party," when he runs against the Milk Trust's candidate for mayor.

"Fatty" is vamped by a pretty girl hired by his opponents, is given the well-known "raze" in court by a corrupt judge, and nearly has his sweet heart lured away from him. But Roscoe comes triumphantly through the difficulties, with a bundle of laughs in his wake. At the Bismarck theater Monday.

Marshall & Connors, a high class singing and dancing act, heads the bill tonight at the Rex; the audience at last night's performance pronounced it the best colored act that ever played there, the piano playing by one of the team and the dancing by his teammate is remarkable, in addition Rex Ray is seen in a sensational western Texas border play that is a scenic gem full of pep and action. The Women's Auxiliary was organized nationally in Austin, Tex., July 26, 1919. Mrs. Murray was one of the first women to organize a unit in Houston in March 1920. When she became state president, there were twenty-three units in the department. Under her direction, thirty additional units have been formed and fifty others are now organizing. Mrs. Murray plans to obtain a unit for each of the 291 posts of the Legion in Texas.

Mrs. Murray was born in Concordia Parish, La. Both her father and mother came of old Revolutionary stock.

Her mother's paternal ancestor was a near kinsman of Daniel Boone; her father's paternal ancestor was a descendant of Nathaniel Greene. During the Civil War her father served as a captain of cavalry in Forrest's Brigade.

PAY TRIBUTE TO THEIR DEAD

Minnesota Legionnaires Pay Homage to Deceased Buddies Who Fought for Their Country.

In a little cemetery among the pines where sleep the members of his family at Cloquet, Minn., the body of John De Foe, the first Minnesota Indian soldier to die fighting for his country, was laid to rest. Carl Anderson post of the American Legion paid homage at his funeral.

Elsewhere through Minnesota, Legionnaires have been paying tribute at the funerals of their dead buddies, whose bodies are being returned from overseas.

"He was a clean-cut American, one of our very best, and his memory will be dear and sacred," said the commander of Wilmeth post at the funeral service of Private Vernon Bailey, in which fifty uniformed Legionnaires took part.

The body of Ralph Gracie, after whom Bemidji post is named, was buried at his home town with honors.

Y. Shibusaki, secretary of the Movie Club of Tokio, writes that the Edgar comedies are very popular in Japan.

Sidney Franklin, director, had jazz tunes played while he filmed convict extras doing a lock-step in "Courage."

Airplane Fighter Takes to Coal Cars to Reach Vocational Training School.

There's no striking similarity between piloting a highflying airplane of the Marine Corps to riding in the coal cars of a freight train. But between these modes of travel, Thomas D. Lane, junior law student at the University of Kansas, will complete his education.

Lane, a member of the Argonne post of the American Legion at St. Paul, Minn., was attending school in the Kansas university when his money ran out. A letter forwarded to him from his native state told of the work of the Federal Board for Vocational Education in Minneapolis. Through disability incident to his service as a flyer, he was entitled to the Federal educational aid. Without sufficient funds to make the long trip, nevertheless he set out to appear before the board.

Three days in a box car, a coal gondola and the tenders of three passenger trains conveyed him to his destination. Several fast changes of cars, unusual maneuvers and debates with trainmen were necessary, but the aviator came through smiling. One mail clerk proved friendly, but that train was bound for Chicago. After two more trials he found a bunk on some coal and woke up the next morning in the St. Paul yards.

Placing his case before the board, he was classed "Section One," entitling him to tuition, supplies and training pay until he completes his course.

MATERIAL FOR ROAD MAKING

Careful Study of Amount and Character of Traffic is First Important Essential.

Professor House of the Colorado Agricultural college is one of the best-known engineers in Colorado. He has been head of the civil engineer department at that college for several years and has always been in close contact with the affairs of the state. In speaking about roads, Professor House says:

"A great deal of agitation is being carried on at the present time, concerning the construction of concrete roads for Colorado. That some of our roads should be paved in this way, there is no question, but I think we should carefully guard against overdoing the matter. In order to be justifiable, road improvements must return in economic and social benefits an amount at least equal to the interest, depreciation and maintenance, over and above those of the old road."

"It is exactly the same as in ordinary business. The amount that should be invested in road improvement is that sum which will give the largest annual returns in benefits to the people of the community."

"It may be real economy to spend \$20,000 per mile for one road and only \$2,000 per mile for another, if the former carries more than ten times the service and costs just ten times as much."

"Before we run wild upon the subject of concrete surfacing for roads or Colorado the proper classification of the roads, and a careful study of the amount and character of the traffic

I GOTTA more deesgust now as I last week when I first come Washington, capital in Unitita State. My friend tellin me everybody come een da congress for maka da law. But seem like only ting he ever make es da speech and da meetstake.

Right now ees greatt been fight for di league of nation and da peace trent. Da peace trent was for stoppa da war and da league of nation for maka heem stay stop.

President Weelson throw up da job over here so can go to France and maka dat ting. And when he getta all feex and breega house da congress try putta on da bum. Dat why ees just like da leetle keed whoss mamma senda heem esn store for buy da eggs. He getta eggs and starts home and when getta almost back some beaig boys maka heem drop.

Now I tink ees no maka so moocha deefrence esf da eggs was fresh or rotten when he leavna da store, but esf dey getta broke es pretty tough on da head. Dat es so gooda why I can explaing da fight wot ees go on now.

But da President Weelson maka one meestake. When he maka dat league for nation he tink would stoppa da di fight. Esf he can go back to France and maka one for stoppa da fight een congress I tink would be gooda suggest. I dunno esf I gotta rights idea.

Wat you think?

GOOD HIGHWAYS IN JAMAICA

Island in British West Indies is Awa-
king to a Realization of Improved Roads.

The Island of Jamaica, in the British West Indies, rich in natural resources and active in trade, is awakening to a realization of the importance of good roads. The advent of the automobile has had much to do in the development of an agitation which now promises valuable results. The system of modern highways which it is proposed to build will mean the speedy development of parts of the island now more or less neglected because of their practical inaccessibility. Completion of a radial system of good roads would undoubtedly be followed by a general adoption of the motortruck for conveying the products to the sea. The increased speed and efficiency thus acquired would tend to promote larger production, and thereby increase the wealth of this already industrious island.

Rust reports persisted and the sentiment turned bullish, the close being near the top for the session. July wound up at \$138 1-2 and September at \$123 3-4 to \$124.

WHEAT PRICES EASIER

Chicago, June 11.—Wheat prices were easier at the opening of the Chicago Board of Trade today. Buying developed after the break reached a point 2 cents off yesterday's close and it continued on rumors of black rust in Nebraska and some indications of a possible wet harvest in other sections.

Rust reports persisted and the sentiment turned bullish, the close being near the top for the session. July wound up at \$138 1-2 and September at \$123 3-4 to \$124.

Bismarck Takes First From Minot

LOCALS BAT OUT VICTORY IN FIRST GAME OF THE SERIES

"Buck" Taylor Pitches Steady Ball and Keeps Minot Hits Scattered While Locals Bunch Theirs off Morris—Minot's "Babe Ruth" Cracks Out Homer and Triple—Two Teams Play Today and Sunday and Valley City Comes Next Week.

Effective pitching by "Buck" Taylor, bunted hits and sharp fielding combined to give Bismarck a 6 to 1 victory over Minot last evening in a baseball game that was, as the team publicity committee said, "worth going 100 miles to see."

Victory is always sweet to the baseball rooter, but the real fan will go a long ways to see a classy game of baseball, no matter who wins. A few plays were messes up last evening, but very few, and snappy work made up for these.

The game was announced as the real opening of the baseball season. The Elm Grove Jazz orchestra put the big crowd in good humor just before the game started, and the two teams lined up at the plate. President O. W. Roberts, of the baseball association and Mayor Lenhart advanced to the home plate with little Louise Kellie. Miss Kellie presented the Bismarck team with flowers, the gift of lady fans, and Manager Alex Harper was presented with a beautiful sterling silver cigarette case, the gift of men fans. Mayor Lenhart tossed out a ball and the game was on.

Team Thanks Fans
Manager Harper today asked The Tribune to express the appreciation of the members of the team for the presentation of flowers made to the entire team and express his personal appreciation of the gift of the fans.

"We are doing our best to give the fans the best baseball we know, and we are mighty glad to believe the fans are with us. Every member of the baseball team has made a lot of friends since coming to Bismarck, has found Bismarck an up-to-date city, and one of the best baseball towns in the Northwest," he said.

"Babe Ruth" Hits One
The game started out like an all-night pitching battle between Morris, Minot pitcher, and "Buck" Taylor for Bismarck, until along came Minot's "Babe Ruth" in the form of Moore, the big catcher. He picked the first ball pitched in the second inning and slammed it to left field for a home run. Moore took the cork off the bat, for Bismarck players dug in after that and soon had the game on their hips.

Manager Harper naturally wanted to show his appreciation of the gift of the fans and he did so by playing a rattling good game at short. He was hurt once in collision with Coble but gamely continued. The local club showed the effects of steady drilling in teamwork and clever directing. Only once did a Bismarck batter fail to do the proper thing at bat—he tried to hit a long one when he should have sacrificed. Over-eagerness caused a little trouble in the field.

Taylor Is Stoddy
Hearts of fans fluttered when Moore knocked his home run, but it didn't bother Taylor. Hightower went out, Taylor to Andler just after Morris' drive. Taylor walked Kline but fanned Warner and Mel Anderson cut down Kline who was trying to pierce second. Moore, who drives the ball with a sledge-hammer force, got a three-bagger later, but Taylor won the commendation of real fans by pitching to the big fellow except when baseball prudence called for him to pass the slugger.

Bismarck came near scoring in the second but didn't get the run over. The third strike was called, in Andler. Coble beat out a hit to first and went to third when Harper's third strike went back of the catcher, Coble making third with a moist hook slide. Harper stole second. Coble was thrown out at home when Ellis hit to third. M. Anderson was intentionally passed, filling the bags again, but Taylor whiffed.

Bismarck scored in the third. Swartz popped to second, Joe Collins banged a triple to right-center, and Flanagan brought him in with a sacrifice fly.

Fast Double Play
A fast double play, Taylor to Swartz to Andler cut down Minot's attempt to score in the first of the fourth. Bismarck again scored in the last half of the inning. Harper lined safely past pitcher Ellis sacrificed. Mel Anderson tripped to right-center, Harper scoring. Taylor singled through the box. Mel Anderson scoring. Swartz forced Taylor at second and then stole the bag, but Collins went out short to first.

The locals added another in the next inning. Flanagan singled to right after missing a couple of Morris' slow ones which bothered Bismarck batters in the first of the game. Andler sacrificed. Coble was safe when Warner dropped Hester's throw from second to first. Flanagan pulling up at third. Harper scored him with a sacrifice fly to left.

Minot Comes Back
Minot came back in the sixth. Hester fanned Giffin singled to right center. Moore walked. Hightower hit to Harper who made a nice stop and threw Moore out at second. Kline was safe when Coble collided with Harper. Harper being hurt, Giffin scored. Warner forced Kline at second. Swartz unassisted.

The locals came back in their half. Ellis went out. Rush to Warner. M. Anderson slashed a single past short and got to third when Leftfielder Shirley let the ball go through him. Taylor scored Anderson for the second time with a single. Swartz forced Taylor at second, and then took sec-

ond when Warner dropped Morris' throw to catch him napping at first. Hester made a beautiful stop of Joe Collins' grounder and threw him out at first.

Flanagan saved a score in the next inning by a nice running catch of Hester's long fly in left, for which he had to take his hat off to the fans.

Moore Gets Triple
Minot began to look dangerous again in the eighth, Moore, the big catcher, tripped to right-center. Hightower went out, Coble to Andler. Mel Anderson made a nice catch of Kline's foul. Warner went out to Andler unassisted.

Lits drove one into left in the last of the eighth and trotted home on Mel Anderson's single. Taylor popped Swartz walked. Collins lined to Shirley, who doubled Anderson at second.

A lot of the fans had started to leave in the first of the ninth but halted when Minot scored a run and had men on bases with slugger Moore due to come up. Shirley went out. Andler to Taylor. Morris fanned. Rush was hit by a pitched ball. Hester dropped a Texas leaguer back of third. Giffen hit to Swartz. Rush scoring. Moore was walked, and Hightower lined out to Harper ending the game.

Meet Today and Sunday

Minot plays again at 6:30 this evening and Sunday at 3 p.m. The games scheduled with Valley City for next week have been canceled. Hazelton, which has gathered in some good new players, will be here next Thursday evening and Dickinson will be here next Saturday and the following Sunday.

Minot has Shirley and Hightower as her two pitchers for the remaining two games. It was reported that Minot was trying to bring Whitehouse, last year American Association pitcher, here for one of the games. Hightower and Moore were in the Pacific Coast League last year. Hightower was one of the best pitchers in the Coast League and with his old catcher, Moore, behind the bat Bismarck has a hard combination to beat. Hightower will pitch either today or tomorrow. Harper will not select the Bismarck pitcher until just before the game.

KILBANE ENTERS CARPENTIER'S SECRET RING AND SIZES HIM UP

KILBANE AND CARPENTIER

BY JOHNNY KILBANE,
Featherweight Champion.

Manhasset, L. I., June 11.—I've just made a close-up of Georges Carpentier, the French challenger,

I called at his barricaded training camp on one of his non-visiting days, for I wanted to see him work when he wasn't performing for public consumption.

I talked with him afterward for more than an hour on the flower-bordered front porch of the old farmhouse in which he is quartered.

Georges is the fastest heavyweight I ever have seen.

Although he has been using his right hand mainly in public sparring with Jeanette Journe (who's a double for Al Palzer), and his other partners, the challenger has a wonderful left that is lightning fast on jabs and hooks. It was with this left hand that he jabbed his way with Joe Beckett to an opening that put the Englishman's chin in line for the right-handed knockout in the first round.

His right cross is a dandy and he has a "flying punch" that he seldom uncorks and which I never have seen used before. It may be that he's holding it out for July 2d. When an opening to the chin occurs, Georges, who is always on his toes, veritably throws himself through the air at his opponent, with his right arm straight out before him. Every ounce of steam and strength is behind his blow, and if it lands, it's a 10 to 1 shot that a kayak will result. Burly Joe Beckett crumpled like paper when it collided with his chin.

There's been a lot of talk about Carpenter's "waif punch." It's nothing much more, as I see it, than a series

of rapid-fire left jabs to the face, the Frenchman meanwhile dancing in and out and circling his opponent to make him turn.

Carpenter is training differently than Dempsey. The champ is working for strength, endurance and hitting ability: Georges is centering his efforts on increasing his already amazing speed. Dempsey plans a give-and-take night, the challenger's campaign calling for him to do most of the giving and very little receiving. For it's generally admitted that the "Carpenter" camp that should the "man killer" get in one of his famous "socks" there would be little hope for Georges.

Dempsey figures Carpenter has an excellent chance if he sticks to long range fighting, for the challenger packs a wicked wallop, himself, and is capable of delivering it while traveling at high speed.
